

CHASSIS BRITE

Ideal for stopping corrosion/rusting on Spring steel chassis.

Fed up with rusting and corrosion on your chassis?

Chassis Brite is an advanced, Military grade, micro bonding, oil free, dry film, corrosion inhibitor and lubricant in an alcohol base.

Dries as a non oily, micro bonded, scuff resistant finish, keeping your chassis free of corrosion. Comes in a handy dropper bottle.

After building your chassis scrub to remove all traces of Flux and crud, then dry and apply Chassis Brite sparingly to clean steel using a cotton bud and allow to dry.

Wash hands after use. Harmful or fatal if swallowed. Seek medical attention.

Combustible, contains petroleum distillates . Avoid heat, spark, flame. Use with adequate ventilation.

KEEP AWAY FROM CHILDREN
